

# Cornwall Mammal Group

## Farm survey in North Cornwall

**Saturday 14<sup>th</sup> August 09.00am – 12.00am**  
**Hallworthy, North Cornwall**

An opportunity to search for mammals and signs on a dairy farm just outside Hallworthy in this beautiful, but relatively poorly recorded, area of North Cornwall. We will be running this event in collaboration with the Launceston Parish Wildlife Group and there will be an opportunity to look for plants, insects and birds as well. We shall be setting Longworth traps to try and gather evidence of wood mice, bank and field voles and possibly shrews. In addition we hope to be able to find signs of otter (the site has several large wildlife ponds) and deer (it is close to an area of forestry).

The mammal part of the day will be led by Dave Groves.

**Remember – its Cornwall, it may be summer but – bring wellies and waterproofs!**

CMG members £ 2.00 Non members £3.00 Children (accompanied) free

**Please book before Wednesday 11<sup>th</sup> August** by email: [enquiries@cornwallmammalgroup.co.uk](mailto:enquiries@cornwallmammalgroup.co.uk) or  
call Dave Groves on 01566 86416

Write to: CMG, c/o Cornwall Wildlife Trust, Five Acres, Allet, Truro, TR4 9DJ
